ABOUT THE WEBINAR

The webinar aims to provide a forum for eminent academicians, technologists and young researchers to exchange their ideas on the latest development and future trends in the fields of Artificial intelligence and Machine Learning. Eminent persons in the respective fields share their experience and knowledge with the participants, which in turn are expected to promote research activities in these advanced materials. This webinar will also provide the platform for investment and collaborations between Academia, R&D sectors and Industries. The webinar will be extremely useful in the sense that it will be attended by different Engineers and scholars making it truly interdisciplinary. This webinar aims to encourage participants to take part in this scientific event with serious activeness.

ABOUT THE ORGANIZING INSTITUTE

Global Institute of Science & Technology was born in the lap of ICARE in the year 2006. The foundation stone was laid by the Founder & Hon'ble Chairman of ICARE, Dr. Lakshman Chandra Seth. It started its journey with only one degree course BCA (H) and then gradually flourished in the field of technical courses. Presently it is having 3-Years Diploma Courses in Mechanical, Electrical, Civil, Computer Sc. & Technology with more than 1200 students. Since inception, Global Institute of Science & Technology is dedicated to the objectives of creating highly trained professional manpower in various disciplines of Engineering, Technology and Social Science.
