Introduction:

Popularly known as NSS, the scheme was launched in Gandhiji's Centenary year, 1969. Aimed at developing student's personality through community service, NSS is a voluntary association of young people in Colleges, Universities and at +2 level working for a campus-community linkage. The fundamental principle of the NSS programme is that it is organised by the students themselves, and both students and teachers through their combined participation in community service, get a sense of involvement in the tasks of nation building.

NSS Movement:

The **navy blue** colour indicates the cosmos of which the NSS is a tiny part, ready to contribute its share for the welfare of the mankind. The **red** colour in the badge indicates that the NSS volunteers are full of blood i.e. lively, active, energetic and full of high spirit. The giant wheels of the Sun Temple portray the cycle of creation, preservation and release, and signify the movement in life across time and space.

Formation of NSS:

The educated youth who are expected to take the reins of administration in future are found to be unaware of the problems of the village/slum community and in certain cases are indifferent towards their needs and problems.

Therefore, it is necessary to arouse the social conscience of the students, and to provide them an opportunity to work with the people in the villages and slums. It is felt that their interaction with the common villagers and slum dwellers will expose them to the realities of life and bring about a change in their social perception.

The National Policy on Education 1986, with modification undertaken in 1992 envisages that opportunities will be provided for the youth to involve themselves in national and social development through educational institutions and outside agencies, Students will be required to participate in one or the other existing schemes, namely, the National Service Scheme, National Cadet Corps. The main objective of NSS programme is to prepare the NSS volunteers for the democratic, self-disciplined and self-reliant way of life.

NSS @ GIST, Motto- „NOT ME, BUT YOU“.

This reflects the essence of democratic living and upholds the need for selfless service and appreciation of the other person's point of view and also to show consideration for fellow human beings. It underlines that the welfare of an individual is ultimately dependent on the welfare of society on the whole. Therefore, it should be the aim of the NSS to demonstrate this motto in its day-to-day programme
